

### Overview

Corel® PaintShop Photo™ Pro X3 gives you the power to easily organize, edit and share professional-quality photos. Accelerate the way you download, sort, and rate your media with new photo management tools, including the new Camera RAW Lab. Make photo improvements faster in the enhanced Express Lab, or go further with powerful new editing tools. Change the composition of an image without distorting the background with the new Smart Carver. Create amazing photo books and projects, upload to Flickr®, Facebook® or YouTube™, print or share by email. Combining single and multi-photo editing tools, online sharing and simple HD video integration; your entire digital workflow is now available in one high-performance package.

### Target Market

Corel PaintShop Photo Pro X3 is designed for photo enthusiasts who are passionate about photography and want to speed up their digital workflow and produce the best-quality results.

### Competitive Positioning

If creating great pictures is your passion, Corel PaintShop Photo Pro X3 is the photo-editing program for you. Featuring a brand-new RAW Lab and easy batch photo processing, it's the only advanced photo-editing software to combine photo management, creative projects, photo sharing and even HD video slideshows in one package.

- **NEW RAW Lab** – manually adjust groups of RAW photos during the loading process
- **ENHANCED Express Lab** – quickly fix common flaws in this speed-editing mode
- **NEW Advanced editing tools** – edit fast with Smart Carver, Vibrancy and more
- **NEW HD photo and video** – import, make basic cuts and export HD video
- **NEW Integrated projects** – create photo books, HD slideshows, cards and more
- **ENHANCED Photo sharing** – email, print online or at home, and send directly to Facebook, YouTube and Flickr
- **Plus, Corel® Painter™ Photo Essentials 4** – Turn photos into paintings in three easy steps!

### Key Features and Benefits

**NEW Photo Organizer** – Customize your digital workflow with new photo management capabilities in the PaintShop Photo Pro X3 Photo Organizer. Use thumbnails and image previews to quickly select your photos.

**Camera RAW Support** – Make RAW adjustments during the loading process and work with even more RAW camera formats—faster than ever before. By working with these "digital negatives," you can achieve the results you want with greater artistic control and flexibility, without overwriting the original RAW files.

**NEW Easy Batch Processing** – Make adjustments to one photo, then easily apply the same changes to multiple other photos. Edit one, apply to many, right from the Organizer.

**ENHANCED! Express Lab** – The new interface makes photo editing faster than ever. Preview photos and videos or make changes in this speed-editing mode. Quickly adjust contrast, apply local tone mapping, remove noise and sharpen images. You can also adjust levels, clarity and white balance, batch-edit multiple photos and more.

**NEW Smart Carver** – Seamlessly remove objects from an image with professional quality. Smart Carver also lets you expand or contract objects without distortion.

**Auto-preserve Originals** – Automatically store a copy of your original photo when saving an edited version.

**NEW HD Video Slideshows** – As an increasing number of DSLRs capture HD video, PaintShop Photo Pro now offers tools that let you combine photo and video projects. View, split and trim standard or high-definition video clips. Then create HD slideshows and movies of your photos and videos, all with the same tool.

**NEW Advanced Features** – Boost color in the least saturated areas of a photo with Vibrancy; isolate and remove an object with precision using the Object Extractor; adjust tone, color balance and exposure with exceptional control; and merge photos of the same scene at different exposures with HDR Photo Merge.

**NEW Built-in Creative Projects** – PaintShop Photo Pro X3 is the only pro-quality photo enthusiast package to so closely integrate creative projects with photo editing. The new PaintShop Photo Pro Project Creator is a fast and simple way to make great-looking photo books, collages, cards and more—all in addition to the easy online sharing options.

**NEW Easy Photo Sharing** – Share photos and videos where and how you want, using email, Flickr®, Facebook® and YouTube™. Print at home or online, send to your mobile device, or save to CD or DVD.
