- **NEW Professional content** - get high value studio-quality templates from RevoStock®
- **NEW Express movie making** – create movies in minutes, then fine-tune with advanced editing tools
- **NEW Real-time effects** – work fast with live previews of special effects like RotoSketch
- **NEW Blu-ray authoring & burning** – author with Hollywood-style DVD menus
- **Online sharing** – send directly to YouTube, Vimeo, Facebook and mobile device

Key Features and Benefits

ENHANCED User Interface – The redesigned interface keeps all your tools within easy reach so you never have to interrupt your creative flow.

NEW Movie Templates – VideoStudio Pro X3 offers the best-quality movie templates in its class, including high value templates from RevoStock. Turn video clips into polished movies in an instant, with Hollywood-style openings, closings, transitions, titles, pans and zooms, soundtracks and more.

NEW High-Speed Filters – Accelerate the editing process by previewing your effects in real time. Less time waiting means more time creating!

Smart Proxy Editing – Speed up HD video editing by using Smart Proxy editing to work in a lower resolution until you're ready to export.

ENHANCED Blu-ray and DVD Authoring and Burning – Create your own Blu-ray titles, and author menus for DVDs and Blu-ray discs, including BD-J menus.

NEW Launcher – VideoStudio Pro X3 gets you right to the task at hand with the new Launcher. From one convenient location, you can start express editing, more advanced video editing, the DV-to-DVD wizard, or DVD Factory Pro for authoring and burning.

NEW GPU and CPU Acceleration – Dramatically speed up your entire movie making process with NVIDIA® CUDA™ and Intel® Core™ i7 optimization.

ENHANCED Title Effects – Create stunning titles in seconds by adding multiple title tracks and effects, then customize your work to get the perfect look.

NEW Multi-Track Overlay Effects – It's now easier than ever add filters and effects to all of your tracks.

NEW Mood Music from SmartSound® – Load a multi-layered audio track as background to a video, then fine-tune individual instruments to ensure that the music complements your movie, not distracts from it.

NEW NewBlue®FX Filters – The NewBlueFX Pack includes a variety of animated effects, including the Detail Enhancer for strengthening edges and bringing out detail in a dull or foggy scene, and the Active Camera for simulating every variety of camera jitter.

ENHANCED Online Sharing – Share your movies with your own personal network or with the entire world in a few simple clicks. Upload your videos and slideshows directly to YouTube™, Vimeo®, Facebook® and Flickr®.
